TEST REPORT
no. 1994/26

Customer:	**PET HARDWARE s.r.o.**
Customer address:	Grymovská 256/1a, 750 02 Přerov IV - Kozlovice
Order:	request dated 10.08.2026
Tested sample:	**Fancy accessories**
Designation of the sample by laboratory - by customer:	1994/26 - des. 4520/XX GP; “IMITATION GOLD”
Number of samples:	1
Dimension of sample:	2 pcs of accessories - (22 x 22) mm; (28 x 47) mm
Date of sample receipt:	11.08.2026
Date of tests performance:	11.08.2026 - 18.08.2026
Test report	
Number of copies:	2 Copy no. 1 - customer; Copy no. 2 - laboratory archive
Place and date of issuance:	Otrokovice, 18.08.2026
Approved by:	…… **Ing. Jiří Štach** *deputy manager of testing laboratory*

ZKUŠEBNA KOŽEDĚLNÝCH A TEXTILNÍCH MATERIÁLŮ A VÝROBKŮ AZL OTROKOVICE

Conditions for use of the Test Report:
The Report contains test results which apply to the sample received only.
The laboratory will not accept any liability for the sampling process. Sampling was carried out by the customer. The laboratory refuses responsibility for the information supplied by the customer (sample and designation).
The Report may not be reproduced otherwise than in full without written consent of the laboratory. The customer should obtain consent of the laboratory that issued the Report for reproducing a part of the Report. If the Report contains any tests carried out on the basis of a subcontract, this fact is stated in the Report. The tests were carried out at the permanent address of the laboratory.

Test report no. 1994/26

Executed tests

Pos.	Name	Method
1	Testing of accessories. Testing of accessories of bagmaker's products. Resistance of accessories against rubbing of nickel	PN 93 0021

Additional information to executed tests and deviations from method procedure:
Test pieces were conditioned before testing for a minimum of 48 hours in the atmosphere with temperature (23 ± 2) °C and relative humidity (50 ± 5) %.

RESULTS OF THE TESTS

Tested sample		1994/26 - Fancy accessories - des. 4520/XX GP; "IMITATION GOLD"				
Pos.	**Tested quantity**	Unit	Limit value[1]	**Determined values[2]**	Uncer-tainty of measurement[3]	Confor-mity[4]
1	**Resistance of accessories against rubbing of nickel**	µg / cm² per week	max. 0,5	**complying**	-	**yes**

Explanations to the table:
1) Requirements and specifications - limit values were stated according to PN 93 0021.
2) Unless stated otherwise, the determined value is stated as the sample arithmetic mean of repeated measurements according to the method used.
3) Measurement uncertainty - not stated.
4) Conformity statement/decision rule: according to ILAC-G8: 09/2019, cl. 4.2.1, binary statement for simple acceptance rule
yes - complies with the limit value **no - does not comply with the limit value**

Report drafted and conformity assessed by: **Ing. J. Štach**
